# Fields of Dreams

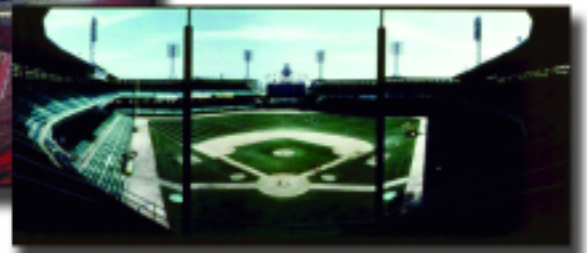

## North American Baseball Stadiums

### by Photographer Jim Dow

*"This field, this game—  
it's a part of our past...  
It reminds us of all  
that once was good  
and it could be again!"*

-Terrence Mann from *The Field of Dreams*  
released by Universal Studios, 1989

Described as having the "grandeur and loneliness of ancient ruins," Jim Dow's work has been cherished for documenting the disappearing uniqueness of America's playing fields.

In Dow's view, American baseball parks are analogous to medieval cathedrals in being "a center of civic pride where people go to do some combination of worship and dream." Fields of Dreams features 26 images, photographed in the early 1980s, of major American and

Canadian stadiums. This exhibition is accompanied by informative text panels including historical stadium facts and memorable athletic accomplishments.

Using multiple color images taken with a camera that utilized 8x10 inches negatives, Dow created highly detailed panoramas offering an unusual view of the ballparks as seen from a fan's point of view.
